Knowledge Grounding in Retrieval-Augmented LMs
The update before the holidays

Martin Fixman (coming from Argentina)

City St. Georges, University of London

December 20, 2024

Quick Personal Update: what has Martin been working on?

Quick Personal Update: what has Martin been working on?

Rough 2025 Timeline:

January 15 I return from Argentina.

January 15 – May Working in papers to present to workshops.

May – October Continuing enhancing and presenting papers.

October Martin (ideally) starts PhD. End writing work.

Afterwards Presenting remaining papers.

Deadlines

Current goal: put the paper in a workshop *as soon as possible*.

- **ACL** Main Conference: February 15.
- Workshop: May 18.

- **ICML** Main Conference: January 23.
- Workshop: ?

- **ICJNN** Main Conference: January 15.
- Workshop: ?

Current State of the Paper

1. New references were added.
2. Experimental methods were rewritten, althrough this could be done better.

Current State of the Paper

1. New references were added.
2. Experimental methods were rewritten, althrough this could be done better.
3. Still a lot of work to do!

Areas to expand in the paper

- **Last minute additions**
  - Attention part.
  - Contextual-or-parametric classifier.

- **Future work**
  - Using ATLAS and similar models.
  - Better categorisation of the answers.
  - Natural Questions dataset.

Thank you!

Have a good 2025!
